metal detector

MDF11

Equipment

- Digital electronics with alphanumeric graphic display
- 3 levels password access protection
- Principle of operation: digital with bidimensional image
- Working multifrequency
- 100 storable product programs
- One RS232 C serial port
- Phase adjustment function
- Function and process alarm output
- High immunity to environmental interferences
- Fail-safe mode
- Wheels
- Very high sensibility to all magnetic and not magnetic metals, stainless included
- High productive flow
- Accurate ejection of the contaminated product
- Total printouts
- Automatic balancing
- Self-check function
- OK pcs. and rejects totalizer
- Report archive
- Date/Time function
- Automatic product compensation (Tracking)
- In conformity with ISO - FDA - HACCP - GMP
- In conformity with Pharmaceutical Metal Detection Systems regulations
- Production data management in conformity with the standards in force

Optional

- Rejects container
- Ejection check photocell
- Separated electronic equipment
- Alarms notification
- Products programs memory expansion
- Ethernet interface
- USB interface
- FAT/SAT, IQ/OQ validations

Technical Specifications

MDF11

Pneumatic supply	0,6 Mpa
Power supply	230V 50/60Hz single phase
Power consumption	200 W
Tilt angle	Adjustable
Mirror finishing of metal parts	Stainless Steel IP54
Climatic environment	from 5°C up to +40°C non-condensing (closed)
Regulations	Conformity with CE regulations and with international standards for Electrical Safety and Electromagnetic Compatibility

The manufacturer reserves the right to change the product specifications without notice. The image and the drawing are indicative of one of the possible configurations of the machine.
